Letter of recommendation

Intercontact Corporation has been our major oil and gas equipment supplier for drilling new exploration well in the Dolginskoye field on the continental shelf in the Pechora Sea in 2013-2014.

We greatly appreciate the efficiency in providing wellhead and mudline equipment, casing, casing accessories, pup joints, additional preparation and welding works delivered within the time frame.

Gazpromneft-Sakhalin LLC has found Intercontact Corporation to be reliable knowledgeable and willing to deliver what is required to meet our project schedules.

Best regards,

Ph.D. in Economics
Director General

Alexander N. Korobkov
