to No _____ dated _____

Over the past three years and up to now, Intercontact Corporation, having its registered address at 8433 Katy Freeway, Suite 250, Houston, TX, USA, has been one of the principal suppliers of the drilling equipment, spare parts and consumables for our drilling rigs, i.e. JU "Murmanskaya" and DS "Deep Venture", operating offshore the Socialist Republic of Vietnam and belonging to JSC "AMNGR".

Over the years Intercontact Corporation has delivered Axon wellhead connector, Cameron collet connector, riser running tool for DS "Deep Venture", as well as carried out repair of a ram-type BOP and subsea BOP control system.

Intercontact Corporation has proven itself to be a reliable supplier of drilling services, operating in a quality manner under the conditions of a tough work schedule of drilling rigs.

Experience of Intercontact Corporation personnel, their prompt response to the incoming orders, wide range and strong links with the manufacturers helped us to complete the repair of subsea BOP of DS "Deep Venture" within the shortest possible time and to avoid downtime of JU "Murmanskaya".

Best regards,
Director General

Viacheslav I. Urmancheev
